

Opening Ceremony for the Shanghai International Flower Show

尊敬的各位来宾，大家好！

能在春暖花开的日子里，与大家欢聚一堂，我感到万分喜悦！！

Ladies and gentlemen, distinguished guests,

As a representative from Singapore (and as the CEO of RSP) attending the Shanghai International Flower Show, it is with great honour that I stand before you amidst this magnificent display of floral splendour in Spring.

Globally, as society increasingly prioritises low-carbon environmental preservation and sustainable growth, the significance of natural landscapes in enhancing urban aesthetics and elevating quality of life cannot be overstated.

Singapore, transitioning from a "Garden City" to a "A City in a Garden," and further to "A City in Nature" stands as a beacon for greening efforts alongside urban development over the past six decades.

As one of the pioneering architecture firms in Asia, RSP has witnessed and participated in the urban development of Singapore, contributing to many iconic landmarks, including green developments.

It is thus especially meaningful for us to be invited by the Shanghai Botanic Garden to work alongside partners from the Singapore Green Construction Development Alliance to collaborate on the design and build for the Singapore exhibition area of the Shanghai International Flower Show and the curation for the afternoon Forum, securing the participation of key Singapore representatives from the Singapore National Parks and Gardens by the Bay to facilitate knowledge exchange.

As RSP celebrates our 20th anniversary in China, we hope to apply our "Nature Plus" ethos, not only in Urban Renewal, TOD, Cultural Tourism and other related projects, but also through important milestones in exchange and cooperation between Shanghai and Singapore, like this event.

On behalf of RSP, I would like to express our well-wishes for the success of the Shanghai International Flower Show.

Together, we can jointly create a more sustainable ecological environment, a more liveable city and a better future for all.

祝愿上海国际花展取得圆满成功！祝愿沪新合作越来越紧密！谢谢！
